

Notes:

- 1) Industries of Interest (Iols) are those industries with exceptional growth or decline over the most recent 5 quarters.
- 2) Industries in **bold** are new to the list this quarter.
- 3) For Iols defined by QCEW and New Hires, the categories are as follows:
 - four consecutive quarters of employment rate growth totaling 5% or more AND net employment gain of at least 25 = "Hi-Growth";
 - four consecutive quarters of employment rate decline totaling 5% or more AND net employment loss of at least 25 = "Hi-Decline";
 - year-over-year employment growth of at least 5% AND net gain of at least 25 = "Growth";
 - year-over-year employment decline of at least 5% AND net loss of at least 25 = "Decline".
- 4) For Iols defined by HWOL (online job postings), the categories are as follows:
 - year-over-year ad growth of at least 5% and net gain of at least 25 = "Growth";
 - year-over-year ad decline of at least 5% and net loss of at least 25 = "Decline".
- 5) **IMPORTANT:** It is possible that a noneconomic coding change could falsely identify an industry as an Iol. We have made every effort to identify and remove these false Iols, but it is not possible to completely separate actual employment change from non-economic coding change, as both may be present in any given industry.
- 6) Confidential industry lines have been removed.
